Create

Add media assets into storyboard then from the object's menu select **Export to EDL** or **Export to XMEDL EDL**, or

Export to EDL with Contents or **Export to XMEDL EDL with Contents**. Second choices will download automatically stored content at the storyboard to the local PC where EDL is saved. Simply, second choice will download EDL file with its corresponding media content.

Example Storyboard (Storyboard)

Duration: 00:04:21:08

Created by Administrator on 15/11/2024, 17:45:19

	Start Time	End Time	Name	Category	Containers
